

CURRICULUM VITAE

Name: Paola D'Aquino

Position:

full professor of Mathematica Logic at Dipartimento di Matematica e Fisica, Università della Campania – “L. Vanvitelli” since November 2017.

Education:

- Ph.D. in Mathematics at University of Oxford (June 1993)
- Master in Mathematical Logic (2 years) at Università di Siena (December 1989)
- Laurea in Mathematics at Università di Siena (April 1986)

Visiting positions awarded:

- MSRI, Berkeley, USA during the semester *Decidability, definability and computability in number theory* for six weeks from August 17 to December 18, 2020 (cancelled)
- UFR Mathématiques – Université Paris Diderot from 10 January to 10 February 2019
- MSRI, Berkeley, USA, two months in 2014, during the semester *Model Theory, Arithmetic Geometry and Number Theory*.
- ICMS (International Center for Mathematical Sciences), Edinburgh, UK, one month 2013
- DAAD at University of Konstanz, Germany, one month in 2012
- Notre Dame University, USA, one month in 2011

Grants:

PRIN 2012, Logica, modelli e insiemi (partecipant)

PRIN 2017, Mathematical Logic: models, sets, computability (local coordinator)

VALERE 2019 (progetti intra-Ateneo, Università della Campania “L. Vanvitelli”), Groups: overlappings between Algebra, Geometry, Mathematical logic and Mathematics Education (partecipant)

Committees:

(conferences)

- Member of Scientific committee of Model Theory and Applications 2020, Cetraro, June 2020 (postponed to 2021)
- Member of Scientific committee of Special session in Mathematical Logic at Congresso Unione Matematica Italiana, Pavia, September 2019
- Member of Scientific committee of Special session in Mathematical Logic at *1st Joint Meeting Brazil-Italy in Mathematics*, Rio de Janeiro (Brazil), August 2016
- Member of Scientific committee *Recent developments in the applications of model theory to algebraic, analytic and diophantine geometry*, ICMS Edinburgh, 2014.
- Member of Scientific committee Model theory 2013, Ravello June 2013
- Member of Scientific committee *Model theory Days*, Seconda Università di Napoli, Caserta 2012
- Member of Scientific committee *Model theory Days*, University of Konstanz, December 2012
- Chair of the Programme Committee of *Logic Colloquium 2012*, Manchester, 2012.

(Associations)

- Member of the Executive Committee of the Association for Symbolic Logic
- Member of the Council of the Association for Symbolic Logic
- Member of the Council of the Italian Association for Logica and Applications (AILA)

Editorial activity:

- editor of The Bulletin of Symbolic Logic since January 2017
- co-editor of “Model theory and Applications”, Quaderni di Matematica vol. 11 (2003), Seconda Università di Napoli
- co-editor dei Proceedings Logic Colloquium 2012, in Annals of Pure and Applied Logic, 167 (10), 2016.
- editor of the series Quaderni di Matematica published by Seconda Università di Napoli, from 2000 to today
- Referee for Archive for Mathematical Logic, Communications in Algebra, Notre Dame Journal of Formal Logic, Journal of Symbolic Logic, Fundamenta Mathematicae, Journal of Logic and Computation, Annals of Pure and Applied Logic, Studia Logica, Review of Symbolic Logic, NSF

Invited speaker in conferences:

- at Connections for Women: Decidability, definability and computability in number theory, MSRI, August 2020 (cancelled)
- “Zero sets of exponential polynomials”, Applications of the model theory of fields with operators, Manchester, UK, 17-20 June 2019
- “Generic solutions of equations with iterated exponentials, Pure and Applied Model Theory Conference, 25 – 28 October 2018, Chicago, US
- “Campi differenzialmente chiusi”, Accademia delle Scienze, 16 ottobre 2018, Torino, Italy.
- “Complex exponential field”, Plenary speaker at Logic Colloquium 2018, 23 – 28 July 2018, Udine, Italy.
- “Spectrum of $\hat{\mathbf{Z}}$ and finite adeles over \mathbf{Q} ”, Around Functional Transcendence, 26 – 29 June 2018, Oxford, UK.
- “Zero sets of exponential polynomials”, Model Theory and Applications to Geometry, September 2017, Padova.
- “Roots of exponential polynomials”, Model theory and Applications, January 2017, Mons, Belgium
- “Real closed fields, models of Peano Arithmetic and recursive saturation” tutorial (3 ore) at 10th Panhellenic Logic Symposium, 11-15 giugno 2015, Samos (Greece)
- “Roots of exponential polynomials”, conference in honor of prof. C. Dimitracopoulos, 3 October 2014 Athens (Greece)
- “Recursive saturation: a valuation theoretic approach”, special session in Model Theory at Joint Meeting UMI-SIMAI-RSME-SCM-SEMA, Bilbao, Spain, July, 2014
- “Recursive saturation: a valuation theoretic approach”, 33rd meeting of Journées sur les Arithmétiques Faibles, University of Gothenburg, Sweden, June 2014
- “Exponential polynomials”, Postgraduate Model Theory Meeting, University of Leeds, UK, January 2014
- “Recursively saturated real closed fields”, Model Theory and Proof Theory of Arithmetic, Bedlewo, Poland, 2012
- “Integer parts of real closed fields”, Journées sur les Arithmétiques Faibles 31, Samos, Greece, 2012
- “Exponential polynomials over Zilber's fields”, Antalya Algebra Days, Cesme, Turchia, 2012

Seminars

- “Spectrum of the profinite completion of the integers”, University of Manchester, UK, March 2019
- “Ultraproducts and $\text{Spec}(\hat{\mathbb{Z}})$ ”, Université de Lyon 1, Lyon, France, May 2017
- “Ultraproducts and $\text{Spec}(\hat{\mathbb{Z}})$ ”, University of Oxford, UK, April 2017
- “Exponential polynomials and Zilber's fields”, Universidad de Buenos Aires, Argentina, August 2016
- “Quotient fields of models of fragments of Arithmetic”, University of Konstanz, Germany, June 2015
- “Generic solutions of exponential polynomials”, University of Konstanz, Germany, January 2015
- “Roots of exponential polynomials”, MSRI, UC Berkeley, USA, February 2014
- “Exponential polynomials”, series of lectures (5 hours) at Universidad Autonoma di Madrid, Spain, Aprile 2014
- “Exponential polynomials over Zilber's fields”, University of Athens, Greece, May 2012
- “Factorization of exponential polynomials”, Notre Dame University, USA, February 2011
- “Exponential polynomials”, Universidad de Sevilla, Spain, May 2011

Teaching:

Undergraduate

- Commutative Algebra, at Seconda Università di Napoli and Università della Campania “L. Vanvitelli”
- Galois Theory, Seconda Università di Napoli and Università della Campania “L. Vanvitelli”
- Mathematical Logic, Seconda Università di Napoli and Università della Campania “L. Vanvitelli”
- Model Theory, at Seconda Università di Napoli and Università della Campania “L. Vanvitelli
- Algebra 2, Seconda Università di Napoli
- Mathematical Logic, at Università degli Studi di Napoli “Federico II”
- Tutor of undergraduate dissertations at Seconda Università di Napoli, Università della Campania “L. Vanvitelli” and Università di Napoli “Federico II”.
- Organizer of undergraduate seminars at Seconda Università di Napoli and Università della Campania “L. Vanvitelli”

Graduate courses:

- Weak fragments of Peano Arithmetic, graduate course, at Universidad de Concepción, January 2018
- Model Theory, Dottorato in Scienze Matematiche e Informatiche, Università di Napoli "Federico II", 2013/2014
- Model Theory, Summer School in Mathematica Logic, Gargnano August 2012

Current graduate students

- Angela Borrata (Università della Campania “L. Vanvitelli”) 2nd year
- Anna De Mase (Università della Campania “L. Vanvitelli”) 1st year
- Martina Liccardo (Università di Napoli “Federico II”) 2nd year

Past praduante students

G. Terzo (Università di Napoli “Federico II”)

M. Bovenzi (Università di Napoli “Federico II”)

Training School for Teachers:

• Instructor of Mathematical logic at SICSI, TFA, PAS (2004/2005, 2005/2006, 2006/2007 e 2007/2008 2008/2009, 2013/2014)

Tutor of 3 dissertations of PAS.

Institutional duties:

• Coordinator of the Commission of Libraries of Seconda Università di Napoli and Università della Campania “L. Vanvitelli”

• Erasmus coordinator for the Department of Mathematics and Physics, Seconda Università di Napoli since 2002 and Università della Campania “L. Vanvitelli”.

• Scientific coordinator of the Library of the Department of Mathematics and Physics at (first) Seconda Università di Napoli and (then) Università della Campania “L. Vanvitelli”

• Member of the Commission for Quality of Teaching (2014 – 2019)

Publications

- [1] “Generic solutions of equations with iterated exponentials” (in collaborazione con A. Fornasiero and G. Terzo) in Transactions of the American Mathematical Society, 370, (2018), pp. 1393-1407.
- [2] “Model theory of some local rings” (in collaboration with A. Macintyre), in IfCoLog Journal of Logics and their Applications, vol 4, N. 4, (2017), College Publications, pp. 885-899.
- [3] “On the value group of a model of Peano Arithmetic”, (in collaborazione con M. Carl and S.Kuhlmann), in Forum Mathematicum, vol. 29, n. 4, (2017), pp. 951-958.
- [4] “A note on \aleph_{α} -saturated o-minimal expansions of real closed fields”, (in collaboration with S. Kuhlmann), in Algebra and Logic, vol. 54, n. 6, (2016), pp. 502-506
- [5] “Comparing \mathbb{C} and Zilber’s Exponential fields: zero sets of exponential polynomials” (in collaboration with A. Macintyre and G. Terzo) in Journal of the Institute of Mathematics Jussieu, vol. 15, (1), (2016), pp. 71-84
