### Research interests

Main research interests are in cognitive processes within an interdisciplinary integration point of view. Particularly, I deal with several aspects of the development and maintenance of pathological

processes, particularly referring to the following topics: attention, anxiety, feeding disorder, obsessive-compulsive disorder, gambling behavior, mood induction and decision making. I'm currently involved in the investigation of cognitive and meta-cognitive processes in neurosis, particularly focusing on neural correlates and psychophysiological mechanisms underlying cognitive processes, both normal and pathological, referring in detail to the role of action (means as goal-directed action) and emotion.

### **PhD supervision**

I have supervised three PhD projects and I was co-tutor to two PhD projects. I have served as internal and external examiner of PhD dissertations (at the University of Campania "Luigi Vanvitelli" in 2016, and at University of Rome "Sapienza", 2014 and 2018). I was Referee for the admission to the PhD final dissertation in "Psicologia e Scienza Cognitiva" ("Sapienza" Università di Roma)

### **Teaching experience**

I have taught several courses in the Psychometric field, including Tecniche di Ricerca Psicologica e di Analisi dei Dati, Metodologia e Tecniche di Analisi dei dati, Metodologia e e Tecnica della Ricerca in Psicologia Clinica e Laboratorio, Metodi e Tecniche di Analisi dei dati, Laboratorio di Metodi e Tecniche di Analisi dei dati. I taught Psychometrics in PhD courses.

### **Publications**

I am author of 36 papers Indexed in ISI-Web of Science or Scopus; 1 national book chapters and 1 handbook of Psychometrics with national impact and 1 test manual; I have presented (or co-presented) more than 50 papers at national and international conferences.

### **Editorial work**
