Name CAPUANO ANNALISA
Adress Via Castello n.48-80070 Bacoli (NA)
Telephone number 0815667669
Fax 0815667652
E-mail annalisa.capuano@unicampania.it

Nationality Italian
Date of birth 11/02/1972

WORK EXPERIENCE

- Date Since November 1st 2017 up to now Associate Professor (SSD MED-50)
Department of Experimental Medicine
University of Campania "Luigi Vanvitelli"
- Employer's name and locality Since 2005 up to April 2017 University Researcher in Pharmacology (SSD BIO-14)
Department of Experimental Medicine
University of Campania "Luigi Vanvitelli"
- Type of business or sector University Hospital
Researcher in Pharmacology (SSD BIO-14)
- Main duties and responsibilities Annalisa Capuano plays its scientific work as Associate Professor at the Pharmacovigilance and Pharmacoepidemiology Center, recognized by the Campania Region as a center of regional importance within the framework of the Department of Experimental Medicine and its charitable activity at the service of pharmacovigilance and pharmacoepidemiology of the A. O. U. Policlinico S.U.N. Her research activities, therefore, is directed to the topic of pharmacovigilance and pharmacoepidemiology.
Since 2004, she is a member (pharmacologist) of the section of Clinical Pharmacology of Italian Society of Pharmacology; from 2015 she is secretary of the section of Clinical Pharmacology of Italian Society of Pharmacology
Since 2010, she is a member pharmacologist of the Ethics Committee of the AOU SUN. She has been collaborating for many years with the National Institute of Health (National Center for Epidemiology, surveillance and health promotion).
Currently performs the following activities in the field of pharmacovigilance and pharmacoepidemiology coordinating the Regional Center of pharmacovigilance and the pharmacovigilance center of the A. O. U. Policlinico S.U.N.
Specifically, the pharmacovigilance activities are:
 1. Participation in the national network of pharmacovigilance (Rete Nazionale di Farmacovigilanza - RNF);
 2. Operational Coordination of pharmacovigilance activities in the Campania Region;
 3. Training and information on pharmacovigilance;
 4. Participation in a group of inter-regional pharmacovigilance (GIF);
 5. Evaluation of adverse drug reactions (ADR) in relation to the national literature and international, with feedback (transmitted then the doctors beacons on the part of the managers of the network of pharmacovigilance);
 6. Establishment of a database of ADR in the Campania Region;
 7. Creation of a Forum to debate the pharmacovigilance between all the leaders of the pharmacovigilance network Regional;
 8. Promotion of specific projects with other partners (Agenzia Italiana del Farmaco - AIFA, universities, etc.);
 - 9 Promotion, programming and coordination of studies of pharmacovigilance and pharmacoepidemiology, in collaboration with pharmacovigilance responsible persons, prescribers and pharmacists, in order to analyze particular aspects derived from spontaneous reporting system. In particular, studies are:
 - a. Coordination and organization of an observational study on use of typical and atypical antipsychotics in the treatment of BPSD ("behavioral and psychological symptoms of dementia") in subjects from all the centers identified by the Campania Region for the treatment of disorders not cognitive in patients suffering from dementia.
 - b. Participation in a Multicenter Study on the safety of drugs in pediatrics coordinated by the study group on the safety of

drugs in pediatrics and conducted at the Italian National Institute of Health (ISS).

c. Monitoring of drugs used in patients with ADHD.

d. Study on the incidence of adverse events related to drugs in the pediatric population in the Campania Region.

She has obtained funding for scientific research projects funded under the L.R. N.5 of 03.28.2002 of the Campania Region and funds research funded by the AIFA in the context of the AIFA notice "Research nonprofit". It is part of Unit of Research for projects financed by MUR (PRIN) and the SUN.

She is also a member of the Secretariat of Pharmacovigilance at AIFA and component of ENCePP at EMA. Her research activities are documented by more than 130 scientific publications on international journals with Impact Factor.

ACTIVITIES TEACHING

University of Medicine and Surgery (Naples) and undergraduate and specialist courses for the health professions: Annalisa Capuano has played its teaching activities in the School of Medicine and Surgery of Naples by performing the following activities in pharmacological disciplines:

1. Lessons in the integrated course of Pharmacology for University of Medicine and Surgery (Naples); she also participates to the commissions for the exams of profit;

2. Lessons in the University Nursing School (Polo Hospital Center "E. D'Aosta"); she also participates to the commissions for the exams of profit;

3. Lessons in the University Nursing and Obstetrics School; she also participates to the commissions for the exams of profit;

4. Lessons in the integrated course of pharmacovigilance, pharmacoepidemiology and pharmacoconomics for the University of Medical Informant Scientific; she also participates to the commissions for the exams of profit;

5. Mentoring of numerous students in learning the theoretical concepts and practices in Pharmacology for the various degree courses;

6. Organization of educational activities and optional elective for students of the University of Medicine and Surgery.

Schools of Specialization: Annalisa Capuano has played its teaching activities at the following schools:

1. School of Specialization in Pharmacology: Courses in toxicology, experimental toxicology and clinical and therapy toxicology;

2. School of Specialization in Cardiology: Pharmacology course of the cardiovascular system;

3. School of Specialization in Medical Hydrology: Pharmacology course;

4. School of Specialization in dermatology: Pharmacology course (for the III and IV year);

Phd in Pharmacological Sciences, Clinical and Experimental Medicine: Annalisa Capuano is part of the College of Professors of the Phd in Pharmacological Sciences and Clinical and Experimental Medicine, playing and teaching activities of mentoring doctoral students.

Training Courses: Annalisa Capuano gave lectures in the training course for Professors of Information and advice centers of the School on issues related to inappropriate use and the abuse of alcohol in the context of the Convention between the Second University of Naples - University of Medicine and Surgery and the Campania Region - Department of Health. In addition, she has related courses including: "training on pharmacovigilance", "introductory course Pharmacoepidemiology", training course "Clinical Trials of drugs, the role of Ethics Committees, adverse reactions to drugs", Course of pharmacovigilance for nurses and obstetrics" aimed at doctors, pharmacists and other health professionals.

EDUCATION AND TRAINING

• Date (from – to)

2000: Master Degree in Medicine and Surgery with honors

2004: Specialization in Pharmacology with honors

2005: University Researcher in Pharmacology

• Name and type of institute of education or training

Faculty of Medicine and Surgery, Second University of Naples

• Main subjects / professional skills covered by the study

Pharmacology, Pharmacovigilance and Pharmacoepidemiology

• Qualification awarded

University Researcher

• Level in national classification (if applicable)

PERSONAL SKILLS AND COMPETENCES

Acquired in the course of the life and career but not necessarily recognized by certificates and official diplomas.
