PRUST OF THE CASERTANA CONURBATION

From January 1999 follows with interest the regulatory developments of the Ministerial Decree 8.10.1998 n.1169 and published on the ordinary supplement n. 195 to the G.U. n. 278 of 27.11.1998 entitled:

Promotion of programs in urban areas called "Urban redevelopment programs and sustainable development of the territory", seeing in it a way to continue his territorial studies on centuriation dell'ager campanus, already the subject of his thesis of PhD in Architectural and Urban Composition.

In particular as Councilor for Urban Planning of the Municipality of Santa Maria Capua Vetere, from March 1999 promotes and coordinates the PRUSST of the Conurbation Casertana having as common leader Caserta (provincial capital) and common president of the conference of mayors SM Capua Vetere (common promoter), involving in the Memorandum of Understanding n.18 Municipalities promoters (then 22) as well as the Province of Caserta.

With Ministerial Decree 19.4.2000 the Ministry of Public Works approves the rankings related to the PRUSST and identifies for the Regions the promoters with the highest scores where, thanks to the PRUSST of the Conurbation Casertana, the Campania results first achieving the maximum score (p.94.03), in front of Piedmont (p.91.70), Lazio (p.89.83), Liguria (p.87.21), etc. By virtue of this, the aforementioned Program is admitted to the first funding envisaged by the Call.

from 01-01-1999 to 19-04-2000

CONVENTION - between the Department of Culture of the Project of the Second University of Naples, Union "Atella" - S.Armino, (CE), Succivo (CE), Orta di Atella (CE), Frattaminore (NA); year 2005

from 15-03-2009 to 15-03-2012

CONVENTION - between the municipality of San Pietro Infine and the Faculty of Architecture Luigi Vanvitelli of the Second University of Naples Scientific responsible: Carlo A Manzo and Massimiliano Rendina

from 27-08-2012 to 03-06-2014

Research agreement between

The Department of Architecture and Industrial Design "Luigi Vanvitelli" of the Second University of Naples, located in Via San Lorenzo, Abbey of San Lorenzo Ad Septimum, 81031 Aversa (CE), in the person of the legal representative Director Prof. Ing. Luigi Maffei

The Istituto Autonomo Case Popolari (IACP), located in Via Ruggiero Eleuterio 45, 81100 Caserta (CE), in the person of the ACER Commissioner Avv. Maria Imparato is

the Municipality of Maddaloni (CE)

Piazza Matteotti, 9, 81024 Maddaloni (CE)

in the person of the Prefectural Commissioner Dr. Samuele De Lucia (purpose of the Protocol)

The Institute and the Municipality entrust the services related to the program to the Department:

"Feasibility studies and proposals for the redevelopment of the public housing quarters of via Napoli and via Feudo in Maddaloni (CE)".

The interventions respond to the needs of the Institute by the Municipality to draw up an organic and effective strategy for the redevelopment and enhancement of the areas involved in the recovery plan of the Institute and the urban strategies of the Municipality

The agreement concerns the elaboration of a recovery plan for the public housing quarters of via Napoli and via Feudo in Maddaloni (Ce), with proposals aimed at the participation of Regional and National Bandios or the elaboration of a program of

project for a national level architecture competition.

The Institute, the Municipality and the Department jointly elaborate a "Unitary Plan of interventions" as structured by this convention. The Department in particular elaborates proposals on these public interventions considered as priorities:

- General report, with the indication of the criteria and implementation rules for the recovery of open spaces, driveway, building structures, public spaces.

- Feasibility plan for the architectural and functional recovery of the public housing districts of via Napoli and via Feudo in Maddaloni (Ce) including the following interventions:

- a- Arrangement of public spaces and areas in the built-up areas with attention to public green areas, flooring, urban furnishings;

- b- Inclusion of socio-cultural equipment, childcare services, equipment for sports and leisure activities;

- c- Study of the strategic relationship between the urban parts.

- d- Arrangement of external spaces positioned on the margins of the districts, with particular attention to the equipped green areas (urban gardens), to the vehicular and pedestrian viability, to the car parks;

The scientific responsible for the execution of the activities covered by the present Protocol are Profs.

Research agreement between the Department of Architecture and Industrial Design "Luigi Vanvitelli" of the Second University of Naples, located in Via San Lorenzo, Abbey of San Lorenzo Ad Septimum, 81031 Aversa

(CE), in the person of the legal representative Luigi Maffei, Istituto Autonomo Case Popolari (IACP), based in Via Ruggiero Eleuterio 45, 81100 Caserta (CE), in the person of the ACER Sub Commissioner Maria Imperato and the Municipality of Maddaloni (CE) Piazza Matteotti, 9, 81024 Maddaloni (CE) in the person of the Prefectural Commissioner Dr. Samuele De Lucia (purpose of the Protocol) The Institute and the Municipality entrust the Department with the services related to the program: "Feasibility studies and proposals for the redevelopment of the construction districts in via Napoli and via Feudo in Maddaloni (Ce)". The interventions respond to the needs of the Institute by the Municipality to draw up an organic and effective strategy for the redevelopment and enhancement of the areas involved in the recovery plan of the Institute and the urban strategies of the Municipality The convention concerns the development of a Plan recovery of the public housing districts of via Napoli and via Feudo in Maddaloni (Ce), with proposals aimed at the participation of Regional and National Bands or the development of a project plan for a national level architecture competition. The Institute, the Municipality and the Department jointly elaborate a "Unitary Plan of interventions" as structured by this convention. The Department in particular elaborates proposals on these public interventions considered as priorities: -General report, with the indication of the criteria and implementation rules for the recovery of open spaces, driveway, building structures, public spaces. - Feasibility plan for the architectural and functional recovery of the public housing districts of via Napoli and via Feudo in Maddaloni (Ce) including the following interventions:

a-Arrangement of public spaces and areas in the built-up areas with attention to public green areas, flooring, urban furnishings; b-Insertion of socio-cultural equipment, childcare services, equipment for sports and leisure activities; c-Study of strategic relationships between urban parts. d-Arrangement of external spaces positioned on the margins of the districts, with particular attention to the equipped green areas (urban gardens), to the vehicular and pedestrian viability, to the car parks; The scientific responsible for the execution of the activities covered by the present Protocol are Profs. Archh. Carlo Alessandro Manzo and Massimiliano Rendina
