## BIO SKETCH

Giuseppe Argenziano is Full Professor and Head of the Dermatology Unit at the University of Campania, Naples, Italy; Co-founder and past president of the International Dermoscopy Society; and Editor-in-Chief of Dermatology Practical and Conceptual Journal.

His main research field is dermato-oncology, being author of numerous scientific articles and books concerning dermoscopy, melanoma and non-melanoma skin cancer. As coordinator of the Melanoma Unit at the Campania University, he has established a successful tertiary, multidisciplinary, referral center particularly devoted to the diagnosis and management of patients with melanoma and non-melanoma skin cancer.

Over the past 25 years he has supervised over 500 foreign and Italian residents in Dermatology, established scientific collaborations with 1500+ colleagues from more than 50 Nations, and organized more than 500 national and international didactic meetings, courses and conferences (such as the Consensus Net Meeting on Dermoscopy and the First Congress of the International Dermoscopy Society).

Professor Argenziano has authored more than 750 full scientific articles and produced landmark primary publications and books in the field of melanoma and dermoscopy. Over the past 25 years he has been invited as speaker and/or chairman in more than 500 national and international conferences in the field of dermatology. His combined publications have received a sum total of 20.000+ citations with an h-index value of 70 (Scopus 2022).

## Brief notes

---

The prevalent scientific output and professional interest of Giuseppe Argenziano is focused on dermato-oncology and particularly on the early diagnosis of melanoma. His research activity begun in 1997 and, in about 25 years, he published more than 700 papers in peer reviewed journals. As shown on Scopus and Expertscape, Giuseppe Argenziano has the first place in the ranking of researchers publishing in the field of dermoscopy and is listed among the top 30 authors in the Expertscape subject category of Skin Cancer and Melanoma. As shown at <https://iris.unicampania.it/> he is first in terms of number of publications among researchers of the University of Campania, his current affiliation.

From 2002 to 2009 he worked as team leader at the Department of Dermatology of the Second University of Naples managing a workload of more than 10.000 patients per year (with more than 60 primary melanoma diagnosed per year). Due to his activity the economy budget of his team was positive for several years. From 2004 to 2009 he is responsible of the Pigmented Lesion Clinic of the Second University of Naples. From 1996 to 2010 he is consultant of the US Naval Military Hospital in Naples.

From 2009 to 2010 he is consultant at the Istituto San Gallicano IRCCS, Department of Dermato-oncology, Rome.

From 2011 to 2014 he is appointed as staff member and project leader for the development of a high diagnostic technology oncologic center at the Dermatology Unit, Medical Department, Arcispedale Santa Maria Nuova IRCCS, Reggio Emilia, Italy. In Reggio Emilia he develops and is appointed as coordinator of the Skin Cancer Unit, a tertiary multidisciplinary referral center for the management of patients with advanced skin tumors. His medical team reaches a workload of about 10.000 patients per year, with about 200 new melanomas and more than 1.000 non-melanoma skin cancers diagnosed and treated by them. His research group achieves the first position in the hospital in terms of scientific output of the year 2012 and 2013, with more than 20% of the total impact factor produced by the IRCCS in that year.

In 2015 he goes back to the Dermatology Unit of the Second University of Naples as associate professor and staff member and in 2016 he becomes Full Professor and Head of the Dermatology Unit. Under his coordination the multidisciplinary team devoted to melanoma and non-melanoma skin cancer managed in 2019 more than 600 new primary melanomas, thus becoming the leading regional referral center for this type of malignancy. With a workload of more than 40.000 consultations per year, the Dermatology Unit of the University of Campania became the most productive referral center of the region for both inflammatory skin conditions and dermatology.

### Main achievements

In 1998 he publishes a simplified method for the dermoscopic diagnosis of melanoma that has become a standard of care being routinely applied by many doctors dealing with patients with pigmented skin lesions. In 2000 he publishes the first Interactive Atlas of dermoscopy based on a database of more than 1000 lesions (see also: Robert H. Johr. Interactive CD of Dermoscopy. Arch Dermatol 2001 – Peter A. Lio. Interactive atlas of dermoscopy. J Am Acad Dermatol 2004).

In 2000-2001 he is scientific secretary of the "Consensus Net Meeting on Dermoscopy", which represents a milestone for the standardization of dermoscopic terminology and criteria for the diagnosis of benign and malignant skin tumors. The results of the Consensus Net Meeting have been published in a book titled "Dermoscopy of Pigmented Skin Lesions. An Atlas Based on the Consensus Net Meeting on Dermoscopy 2000" (edited by Edra Medical Publishing and New Media, Milan; 2001) and in the blue journal (Argenziano G, et al. Dermoscopy of pigmented skin lesions: Results of a consensus meeting via the Internet. J Am Acad Dermatol 2003).

In 2002 he is Guest Editor of an issue of "Clinics in Dermatology" devoted to dermoscopy of pigmented skin lesions. Since 2002 he is Academic Director of the International Short Course on Dermoscopy organized by the Medical University di Graz, Austria ([www.meduni-graz.at/dermoscopy](http://www.meduni-graz.at/dermoscopy)).

In 2003 he is co-founder of the International Society of Dermoscopy. Since then he is General Secretary of the Society. In 2005 he is appointed as Assistant Editor of the journal "Dermatology", that is the official organ of the International Dermoscopy Society.

In 2006 he organizes as General Secretary the First World Congress of the International Dermoscopy Society, held in his home town. In the same year he publishes in the Journal of Clinical Oncology a randomized study demonstrating that general physicians may benefit of the use of dermoscopy to improve their ability to triage suspicious skin tumors. This paper is "CME article" at the Medscape website and is cited as "Medscape's Top Dermatology News of 2006".

In 2007 he is Workshop Chairman at the 21st World Congress of Dermatology in Buenos Aires, and editor of the Color Atlas of Melanocytic Lesions of the Skin (Springer-Verlag, Berlin Heidelberg, 2007), reviewed by Federman DG and Federman GL. in JAMA 2008. In 2008 he is appointed as Editorial Board member of the Journal of the American Academy of Dermatology (JAAD), as well as a member of the working group for the Italian melanoma guidelines (coordinated by AGE.NA.S - Agenzia Nazionale per i Servizi Sanitari Regionali). In 2008-2010 he is Faculty Professor and Course Coordinator for the IMED 7003 (Assessment & Diagnosis) e-learning course, Masters of Medicine, Primary Care Skin Cancer Medicine Unit, School of Medicine, University of Queensland, Australia.

In 2008 he is appointed as workshop director of the dermoscopy session at the Summer Meeting of the American Academy of Dermatology, and in 2009 as workshop director at the Annual Meeting of the American Academy of Dermatology. In 2009 he is President of the National Congress of the Italian Society of Non-Invasive Diagnosis in Dermatology (AIDNID), held in Naples. In 2009 he is honorary president of the 2nd Congress of the International Dermoscopy Society held in Barcelona, Spain. At that congress he is appointed as president elect of the International Dermoscopy Society.

In 2010 he is shortlisted for the Dermatology Chair at the Department of Dermatology, Cardiff University, UK. In the same year he is appointed to the position of Associate Professor at the School of Medicine, University of Queensland, Australia, and becomes President of the International Dermoscopy Society on March 7th, 2010. In the same year he publishes 2 CME articles on the Journal of the American Academy of Dermatology. Again in 2010 he is appointed as Associate Professor of Dermatology, qualification achieved at the Faculty of Medicine and Surgery of the University of Rome Tor Vergata, Italy. In 2010 is president of the 1° Workshop Internazionale di Dermoscopia e Gestione Pazienti con Tumori Cutanei, Rome, Italy, with more than 550 Italian Dermatologists participating at the event.

In 2011 he is winner of the First International Prize "San Gallicano" for research on melanoma diagnosis, with the project: "Early detection of skin cancer: a multilevel approach to increase screening reliability and management efficiency". In the same year he is invited at the 22nd World Congress of Dermatology in Seoul to chair the Symposium on Dermoscopy, which was scored top 1 symposium in terms of lecture grade distribution.

In 2012 he is appointed as a member of the International Affairs Committee of the American Academy of Dermatology for 4 years. In the same year he obtained fundings from the grants of ricerca finalizzata 2010 of the Ministero della Salute Italiana for funding a clinical trial entitled: An opportunistic screening strategy to improve the triage of skin cancer by primary care physicians - A randomized study. Institution: Arcispedale Santa Maria Nuova IRCCS, Reggio Emilia. Project Code: RF-2010-2316524. Funds: € 150.000,00. Again in 2012 he is appointed as Associate Professor at the Department of Dermatology of the Second University of Naples, Italy.

In 2013 he is invited as Guest Lecturer on behalf of the European Academy of Dermatology and Venereology at the joint EADV/AAD session, AAD Summer Academy Meeting, New York, August 1st, 2013. In the same year he is Lead Guest Editor of an issue of "Dermatologic Clinics" devoted to dermoscopy of pigmented and non-pigmented skin lesions. On December 16th, 2013, he acquires the habilitation as Full Professor in Dermatology following the competition started in 2012 by the "Abilitazione Scientifica Nazionale" of the

Italian Ministry of the University and Research. His H-C index is the second best among the 25 habilitated professors in Dermatology.

In 2014 he is senior author of a systematic review published in *Lancet Oncology* about the use of sentinel lymph node biopsy in atypical Spitz tumors, demonstrating the very limited diagnostic and prognostic validity of this procedure in this particular subset of lesions (Lallas A, Kyrgidis A, Ferrara G, Kittler H, Apalla Z, Castagnetti F, Longo C, Moscarella E, Piana S, Zalaudek I, Argenziano G. Atypical Spitz tumours and sentinel lymph node biopsy: a systematic review. *Lancet Oncol* 2014). In the same year he is invited for the Opening Plenary Lecture at the 11th EADV Spring Symposium, held in Belgrade, Serbia, on May 22-25. Again in 2014 he is appointed as Honorary President of the Hellenic Society of Dermoscopy. In 2014 he is appointed as best lecturer of the Congress of the European Academy of Dermatology and Venereology.

In 2015 he is invited for a plenary lecture at the 24th Congress of the European Academy of Dermatology and Venereology (EADV) in Copenhagen. In November 2015 he is appointed as Chair of the Dermatology Unit of the Second University of Naples, Naples, Italy. In 2016 he is appointed as Coordinator of the aggregated School of Specialization in Dermatology and Venereology of the Second University of Naples. In the same year he is appointed as board member of the World Congress of Dermatology, Milan 2019. Again in 2016 he is appointed as Full Professor of Dermatology at the Second University of Naples. As in the last 6 years, also in 2016 he organizes the VII Workshop Internazionale di Dermoscopia e Gestione Pazienti con Tumori Cutanei, which in Rome brings together about 1000 dermatologists from all around the country.

In 2017 he is appointed as Editor-in-Chief of *Dermatology Practical and Conceptual Journal*. In the same year he is invited for a keynote lecture to the 97th annual meeting of the British Association of Dermatologists in Liverpool. Again in 2017 he publishes the following title: Argenziano G, Lallas A, Longo C, Moscarella E, Kyrgidis A, Ferrara G. *Cutaneous melanoma: A pocket guide for diagnosis and management*. London: Elsevier. In the same year he is appointed as Honorary Member of the French Society of Dermatology. Again in 2017, he is recipient of the 2017 ILDS Certificate of Appreciation for International Leadership. This Award is made to outstanding individuals who have given life-long dedication to particular aspects of

dermatology, far beyond what one would expect of a dermatologist in his or her normal practising life.

In 2018 he is invited as keynote speaker at the EADV President's Symposium of the 27th Congress of the European Academy of Dermatology and Venereology, in Paris. In 2019 he is invited as plenary speaker at the 24th World Congress of Dermatology, in Milan. In the same year he is invited as Member of the European Dermatology Forum and appointed as Honorary Member of the British Association of Dermatologists.

In 2020 he published the first Italian guidelines for the management of melanoma patients under the auspices of the Italian Society of Dermatology (SIDEMAST). In 2021, as Editor-in-Chief he brings *Dermatology Practical and Conceptual Journal* to acquire, for the first time, a JCR Impact Factor of 1,926 and a Scopus CiteScore of 0,6 (see also [dpcj.org](http://dpcj.org)).

In 2022 [research.com](http://research.com), a prominent academic platform for scientists, mentioned Giuseppe Argenziano in the Top 1000 Scientists in the area of Medicine. His ranking is #255 in Italy and #8327 in the world. [Research.com](http://research.com) ranking is constructed using the H-index data gathered by Microsoft Academic and includes only prominent scientists with an H-index of at least 70 for scientific papers published in the field of Medicine. With an H-index of 83, his ranking is #2 in the Italian Dermatology ranking and #6 in the University of Campania ranking. In Google scholar his ranking is #32 in the field of Dermatology worldwide.

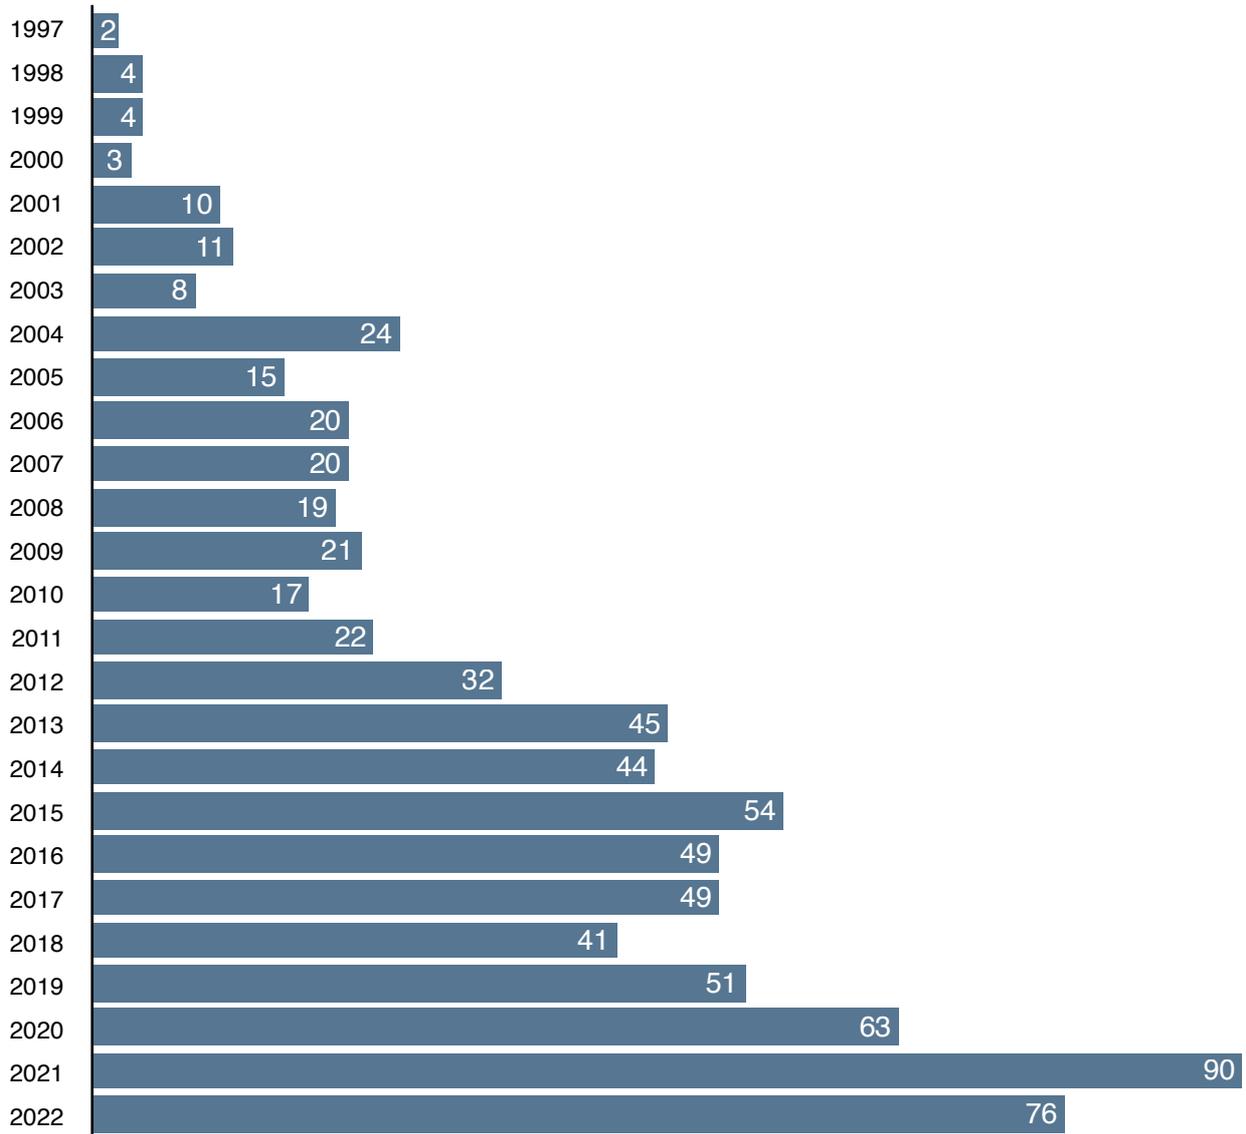

In 2022 he is invited as keynote plenary speaker, at the 31st Congress of the European Academy of Dermatology, in Milan, and at the 51st Annual Meeting of the ESDR, In Amsterdam.
