SUMMARY OF QUALIFICATIONS

Born on 08/10/1972 in Naples Italy, Architect, Ph.D. in Industrial, Environmental and Urban Design, Associate Professor of Industrial Design at the University of Campania 'Luigi Vanvitelli' (previously Seconda Università degli Studi di Napoli) - Department of Architecture and Industrial Design (DADI).
National qualification to become Associate Professor in Industrial Design (ASN 2018 art. 16 L. 240/2010).

AREAS OF EXPERTISE

Subject Area: Industrial Design Disciplines - Product design, Product and service system
Sub - areas Design for cosmetics, Social Design, Design for Sustainability

ISTITUTIONAL ROLES

- 2008 - now Design for Peace Lab activities coordinator. The creative lab was established with the purpose of sharing experiences and best practices in the field of international cooperation and the management of humanitarian emergencies.
- 2010 - now Assistant Professor of Industrial Design at the the University of Campania 'Luigi Vanvitelli' - Department of Architecture and Industrial Design (DADI).
- 2013-2014 Rector's Delegate for Students services and for the Sun hospitality Programme.
- 2016 - now Member of Commission for Quality Evaluation of the Master degree course in Design for Innovation.
- 2018 - now Member of Commission for Quality Evaluation of the Department in Architecture and Industrial Design
- 2017 - now Secretary of the Teaching Course Council in Design for Innovation.

EDUCATION

- 1999 Degree in Architecture with honours at the University of Naples Federico II discussing a thesis in the field of architectonic restoration titled «Restoration and refunctionalization of the De' Medici's Building».
- 2000 - 2003 Participate to the urban plan of the National Park of Vesuvius.
- 2002 - 2005 Ph.D. in Industrial, Environmental and Urban Design at the Second University of Naples (SUN) discussing a thesis on the field of design for sustainability titled: « The High-Low logic in the development of new industrial products».
- 2007 - 2008 Research grant at the 2nd University of Naples, research on the field of the Product Service System.

MAIN RESEARCH ACTIVITIES

The main research activity is on design oriented strategies for the local production development, it is focus on design for sustainability, product and service design, social design and cosmetic design.

- The main research activity is on design oriented strategies for the local production development, it is focus on design for sustainability, product and service design, social design and cosmetic design.
- 2002 - 2005 the research on **design for sustainability**, developed during the P.h.D. course, aims to definition a design methodologies for eco-oriented and competitive strategies direct to sustainable local production models.
- 2007 - 2008 the research on **product and service design**, developed during Research grant, aims to describe a planning methodology in the field of strategic design and services design highlighting the importance of sharing strategies for the development of territories and the active participation of local communities in the planning process.
- 2008 - now the research on **social design** aims to define innovative products and services addressed

to population in emergency and to define solutions social issues resolution. Among the project, has been filed for a patent for industrial invention titled "XeroTextile" project of a high performance fabric for the agricultural sector, that was selected for the National Award Italy of the innovators that promote the dissemination of innovative technologies.

- 2008 – now the research on **cosmetic design**, developed during researches with dermocosmetic local companies, led to create a product line in the dermocosmetic field with a particular interest to eco-oriented packaging which is a patent.

NATIONAL AND INTERNATIONAL TEACHING ACTIVITY

National Teaching Activity at the University of Campania "Luigi Vanvitelli"

- 2008 - 2013 Cosmetic Design at the Fashion Design Degree Course, Second University of Naples.
- 2013 - 2018 Social Design at the Design for innovation Degree Course, University of Campania 'Luigi Vanvitelli'.
- 2020-21 Eco-design lab for the quality life at the Planet Design Degree Course, University of Perugia.

International Teaching Activity

- 2014 Visiting professor (May 2014), at the Institut Saint-Luc di Liège LLP/ERASMUS.
- From 1st September 2019 to 7th January Visiting Fellow within the program Erskine Fellowship, at University of Canterbury, New Zealand.

SCIENTIFIC RESPONSIBILITY FOR NATIONAL RESEARCH PROJECTS FINANCED ON THE BASIS OF PEER REVIEWED COMPETITIVE CALLS

- Scientific Project Leader of the local research unit of the research project " Innovative Bus Integrated and Sustainable - IBIS-PON I&C 2014-2020", (03/04/2017-31/12/2018), funded by the Italian Ministry for the Economic Development (Project Budget: 3 M€, Local Budget: 317 k€).
- Scientific Project Leader of the local research unit of the research project "MICROCAR Ecocompatibile - PON I&C 2014-2020, (01/01/2014-31/12/2015) funded by the Italian Ministry for the Economic Development (Project Budget: 2.1 M€, Local Budget: 120 k€).
